LED EGRESS MICRO INVERTER

**EBS
SERIES**

Micro inverter models provide up to 25 watt of emergency backup light exceeding 90 minutes for LED retrofit installations to meet NEC requirement for EGRESS lighting.

- Lighter, smaller & lower operating temperature.
- Longer life: 300+ more charge cycles than competition; 500+ total.
- Environmentally friendly: Li-Ion Battery.
- Performance: No light output or life decrease over time.
- Equipped with over charge and over discharge protection.
- Battery isolated from circuit board & all electronic components.
- Moisture resistant & fireproof housing.
- High frequency radio protection + short circuit & overload protection.
- Available with or without metal conduit.
- Input voltage 110~227V; Output voltage 110~277V.

SPECIFICATIONS	
BUY AMERICAN	Yes
CERTIFICATIONS	cULus
INPUT VOLTAGE	100-277V; 50/60Hz
OUTPUT VOLTAGE	100-277V; 50/60Hz
POWER CAPACITY	≤25 Watt
POWER OUTAGE LIFE	>90 Minutes
RECHARGES	>500
WARRANTY	5 Years
WIRING	Remote Wiring
